

Program Committee

Our Chapter programs have been admired for ages! Education is what CSI San Francisco Chapter is all about, and we have a fine group of people on the Program Committee working hard to bring you programs that will pique your interest, expand your technical knowledge, teach you something new, and give you an opportunity to meet new people and have some fun with your learning experience.

PROGRAM TRACKS: To make sure that we stay focused on giving our Chapter a diverse selection of educational options, we have four Program Tracks:

- **First Person:** Case Studies and Lessons Learned. Here we allow for tours when available, First Person accounts/Storytelling about projects, and opportunities for the audience to hear about case studies and Lessons Learned.
- **CODES:** You ask and we deliver. We have an ongoing commitment to educate our audience about upcoming and recent code changes." Many of you asked for more programs about codes. The next revisions to the California Building Code, new energy efficiency standards, clean air requirements – all of these topics are important to our work.
- **DESIGN & CONSTRUCTION:** Even though our prime directive is technical subject matter, we all enjoy having the designers come to present case study information about Bay Area buildings. We also want to bring programs each year that focus on the economic issues, including cost estimating and economic forecasts.
- **SUSTAINABLE DESIGN:** We want to help our members stay ahead of the market evolution to sustainable design. This year and going into the future we are going to be bringing you Green codes and other topics related to sustainability so please stay tuned!

TABLE TOP POLICY: We welcome manufacturer's representatives who want to set up a table top during the social hour when we have a monthly meeting at our regular venue. See our [Table Top Policy](#) for more information and contact our Program Chair if you want to participate.

SPEAKER GUIDELINES: If you are interested in presenting to our Chapter, please review our [Speaker Guidelines](#) to see if your program fits our educational needs and contact our Program Chair.

Check our [home page](#) for this month's program and our [calendar](#) for upcoming programs. Want to make a program suggestion? Join our Program Committee? Give us some feedback? Contact our Program Chair [Julie Barrett](#).
